

American Foundation of Counseling Services, Inc.

AFCS Dream for 2015

(6/21/11)

AFCS is well known in the community and held in the highest esteem for excellence in all of its programs. It serves varied customers including private pay, insured and underinsured clients. Its reputation attracts foster care homes, referrals from diverse sources and highly qualified staff. AFCS is chosen because of its mission of hope and healing for mind, body and spirit, where every client and staff member experiences a warm and accepting environment. The agency is recognized for the outstanding services it provides to clients and is sought after by community entities as a key collaborating partner.

AFCS staff provide the highest quality services including customer focused support services, outpatient therapy services, foster care and Clergy and Congregational Care. Staff is recognized for extraordinary accomplishments and leadership in both outpatient and foster care, as well as for the wide array of specialty services provided. Employee satisfaction thrives due to the agency culture, excellent staff development opportunities, and exceptional compensation package.

State of the art technology is available and supports all aspects of the agency's work. Physical space is user friendly and available to accommodate additional program growth.

The board of directors dedicates itself to the mission of the agency, and consists of active and diverse members who are recognized for their excellence in the community. They are committed to all aspects of the agency's work and play a vital role in carrying out other initiatives, such as a Child Guidance Clinic.

The financial vitality of the agency supports the AFCS dream and allows it to flourish. This is accomplished through enhanced efficiencies, living its Social Entrepreneur principles, and exceptional fundraising efforts. These efforts include the vast and continued success of the agency's signature event - Ethics in Business, which incorporates a percentage of donations dedicated to the ever growing endowment fund.
